Junior Data Analyst

Business Intelligence Student

- Business Computing undergraduate specialized in Business Intelligence, with a strong grasp of Data Analysis, Front-end and Back-end web development, and mobile development domains. Passionate about data analysis and information technology, I am seeking an end-of-studies project internship to apply my diverse skills and make a significant contribution to your company.

- Throughout my studies, I have gained expertise in data manipulation, creating user-friendly interfaces, and developing high-performance mobile applications. I have also had the opportunity to work on real projects, applying my theoretical knowledge to solve complex problems.

- My goal is to implement my technical skills in a challenging professional environment while continuing to learn and grow. I am excited to contribute to innovative projects and gain practical experience in the fields of Business Intelligence and software development.

- I am prepared to take on new challenges and fully engage in an internship that will allow me to further develop my skills while contributing to your company's success.

PROFESSIONAL EXPERIENCE

Support and Information Systems (SIS) Internship   July 2020 – August 2020

Tunisia Telecom Regional Office – SIS Bureau, Ben Arous, Tunisia.

- Installation and maintenance of computers, diagnosing hardware issues, and performing minor repairs to optimize the company's IT infrastructure's performance.
- Visits and maintenance of regional servers to ensure stable internet connectivity.
- Installation and configuration of fiber-optic networks to enhance high-speed connectivity for clients.
- Database management, including design and security measures to protect data integrity and confidentiality.
- Developed a Local Desktop Application using WinDev, C++, and SQL to optimize IT resource management in the company's regional offices.
- Made a significant contribution to the operational efficiency of Tunisia Telecom – SIS Bureau by acquiring practical skills in IT support, system administration, and software development.

Data Digitization Internship   July 2021 – August 2021

Ministry of Justice, Court of First Instance, Ben Arous, Tunisia.

- Managed a data digitization project within the Court of First Instance, Ben Arous, Tunisia, during my summer internship in 2021 with the Ministry of Justice.

- Coordinated document digitization and electronic archiving operations to optimize the management of judicial files.
- Analyzed digitization needs and implemented efficient procedures to ensure the confidentiality and accessibility of sensitive information.
- Trained employees in scanning tools and data security protocols.
- Contributed to the implementation of software solutions for indexing and fast retrieval of digitized documents.
- Improved the efficiency of the justice service by modernizing document management processes.

Full Stack Web Development Internship   June 2022 – August 2022
Cuba Studio, Ben Arous, Tunisia.

- Designed, analyzed requirements, and wrote a detailed specification in collaboration with the client, using detailed UML diagrams to guide development.
- Developed a complete business website as a Full Stack web developer, utilizing MongoDB, Express.js, React.js, and Node.js technologies, including nine functional user interfaces.
- Configured and managed a VPS server on DigitalOcean, including the installation of Vesta Control Panel (Vesta CP) with SSH access.
- Configured the domain name with Vesta CP and deployed the website on the VPS server, ensuring online hosting of the company's website.

UI/UX Design Internship   July 2023 – August 2023
Express Medical Transport Assistance (EMTA), Hammamet, Nabeul, Tunisia.

- Designed and defined the client's UI/UX design needs, including creating a complete graphic charter for Express Medical Transport Assistance (EMTA), including a logo, flyers, designs for social media, font and color selection, and branding for company vehicles and the reception area.
- Designed mobile application and e-Commerce website interfaces for EMTA, aligning designs with the client's needs.
- Utilized Adobe Photoshop, Adobe Illustrator, Adobe InDesign for various design process stages, and Adobe XD for UI design.
- Created descriptive videos and Motion Design for social media using Adobe After Effects.
- Launched a social media advertising campaign to promote EMTA.
